In my opinion ,you have to always believe in your dreams and try to make them true.I know that sometimes it might be difficult but with some persistence you will manage it.I believe that this is the message that the poem gives to us.

A poem is the best way to remind you that you have to believe in your dreams and try to make them true ! If we haven't got dreams we will not have successes because we wouldn't try to make something true.

Kobe Bryan

You are right! All the people must have dreams and believe in them because that is the meaning of the life...

SPEAKING OF DREAMS: At Christmas, I went to spend my holidays in Athens! On new year's day we met and ate together in my grandma's house! It was great! In the evening I went to Allou fun park with my friends ! I have had this dream since I was 5 years old! In the future I want to go to Spain and to France !! am sure that my dream will be true soon because I believe in it!

Wow! I want to go to Athens too but I live in New York and as you understand it is a little difficult!

Oliver

You must have had a great time with your friends and your family!
